PEGASO@THE MOBILE WORLD CONGRESS 2017
The Pegaso project attended the Mobile World Congress 2017 held in Barcelona on February 27 – March 02 2017. The Mobile World Congress is the world’s largest gathering for the mobile industry, organised by the GSMA and held in the Mobile World Capital Barcelona. During this occasion the Pegaso ecosystem was presented to the visitors.

PEGASO ON THE OPEN ACCESS GOVERNMENT
The Pegaso project was mentioned on the “Health and Social Care” section of the “Open access government”, a platform for policy makers, experts, and opinion leaders to highlight new projects, discuss and debate current challenges, and communicate instances of best practice.

PEGASO: FINAL PILOT IN PROGRESS!
The Pegaso Final Pilot is ongoing! More than 300 students, coming from 8 different schools in 4 different nations (Italy, Spain, England and Scotland) are now using the Pegaso ecosystem. Stay updated about the Pegaso pilot, follow the Pegaso project!

BEAT THE STREET: GETTING COMMUNITIES MOVING
The Health Companion is everything you need to live the Pegaso experience. It is your gate to new services and opportunities. You can monitor your eating habits, check your daily activities, manage your health data with your doctor, locate places in the real world, share your experience with the community, and take part in exclusive games and events. Sign in and Fit for Future!

PERSONALISED GUIDANCE SERVICES FOR OPTIMISING LIFESTYLE IN TEEN-AGERS.
Knowledge on how to stay healthy does not by itself motivate people to adopt healthy lifestyles. PEGASO targets teenagers by utilising technologies and approaches they are familiar with. Gaming strategies, social networks and communities of interest are integrated in a participatory design methodology that can make a difference. Follow us on PEGASO Fit 4 Future!

This project has received funding from the European Union’s Seventh Framework Programme for research, technological development and demonstration under grant agreement No 610727.
