PEGASO AT THE RESEARCH NIGHT 2015

Pegaso featured at the Researchers’ Night on 25 September 2015, in Genova, thanks to the contribution of Gruppo SIGLA, partner of the project that presented to the participant Pegaso concept and main functionalities. Meet me Tonight is the European Researchers’ Night, an annual appointment that intends to spread scientific culture and knowledge on research careers among citizens of all ages through interesting and stimulating events and initiatives.

SCIENTIFIC RESEARCH STATUS IN CATALONIA

On September 2015, Centre de Resultats, Results Central, an AQUAS project which aims to measure, evaluate and disseminate health and quality results achieved by the different agents that integrate the Catalan Health System, released the Report on Catalan Research 2013. According to this report, research in Catalonia moves more than 216 millions of Euros. Almost one fourth of the competitive aids came from the European Union, which is becoming an important funding source. Compared to 2012, in 2013 the indexed scientific ...

REDUCING SEDENTARY BEHAVIOURS WITH CREDITS4HEALTH

Pegaso is glad to present Credits4health: a social innovation and health promotion European research project aimed at designing, developing, and testing a preventive healthcare system to reduce sedentary behaviours, enhance the level of physical activity, and foster the adoption of healthy dietary styles in people living in the Euro-Mediterranean Countries....
